Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 edition. Excerpt: .conditions by Col. J. G. Warren and its analysis by other federal engineers has supplied a long felt want of authentic data, and has answered with peculiarly disinterested wisdom many of the hitherto perplexing questions in regard to comparison of plans for developments, and also as to the amounts of water necessary for maximum scenic grandeur and the amount that can be released for power purposes. This compilation of data and the well thought out conclusions therefrom, made it possible for the Federal Power Commission to come to a quick determination of the proper form of development to be adopted, which was expressed in its first license which was issued to The Niagara Falls Power Company on March 2, 1921. The nature of the developments made on the American side at Niagara, prior to 1918, are shown by Figs. 10, 11 and 12. Fig....
