

The Geometry of Biological Time (Interdisciplinary Applied Mathematics)

By Winfree, Arthur T.

Springer, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: From the reviews: "This book is a wonderful exposition about his life's work and is presented with such clarity that the reader gains an insight into details of his manner of thinking the reader is taken on a quest to solve biological mysteries and travels from the intricate beginnings of formulating the questions, through the apices and troughs of analyzing, and on to the discovery of the holy grail, that which yields biological predictions and answers. One leaves with a sense of understanding that hopefully can be applied to one's own work this book could easily serve a dual purpose. First, through the introduction of basic mathematical concepts such as topology combined with modeling, the book serves as an introduction helping the non-applied reader to see the beauty of mathematical modeling. Second, because Winfree explains the modeling process very thoroughly, instead of just presenting equations, the book can serve as a medium for the medical professional to acquire an understanding of the modeling process. A wonderful accomplishment. I am proud to have this book on my shelf and consider it a seminal text in mathematical modeling. This is a...
