

Purine and Pyrimidine Metabolism in Man V

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

(Mitchell Kuhn III)

PURINE AND PYRIMIDINE METABOLISM IN MAN V

To save **Purine and Pyrimidine Metabolism in Man V** eBook, remember to refer to the web link below and save the file or gain access to additional information which are have conjunction with PURINE AND PYRIMIDINE METABOLISM IN MAN V ebook.

Book Condition: New. Publisher/Verlag: Springer, Berlin | Part B: Basic Science Aspects | The Fifth International Symposium on Human Purine and Pyrimidine Metabolism was held in San Diego, California (U. S. A.) in July and August of 1985. Previous meetings in this series were held in Tel Aviv (Israel), Baden (Austria), Madrid (Spain) and Maastricht (The Netherlands). The proceedings of each of these meetings were published by Plenum. The next meeting will be in Japan. This Symposium differed from those that went before in that it permitted us to honor Dr. J. E. Seegmiller, Professor of Medicine at the University of California San Diego, for his many contributions to our understanding of purine metabolism in man. This publication is dedicated as a Festschrift to Jay. Dr. Richard W. E. Watts delivered the keynote address outlining in scholarly fashion the history of Dr. Seegmiller's accomplishments in research on purine metabolism and the great number of currently active scientists in this field who have worked with him. This address is published as the first contribution to Volume I. Dr. Dewitt Stetten, Jr. , was scheduled to be the speaker at our banquet. Unfortunately, he could not be with us. Dr. Seegmiller has written an appreciation of Dr. Stetten and his contributions to our field, and this has been published following Dr. Watts's paper. The growth of knowledge in purine and pyrimidine metabolism continues to be exponential. The variety of subjects included in these volumes is impressive. | Adenosine Receptors.- Adenosine Receptors on Human T Lymphocytes and Human Thymocytes.- Adenosine Receptors on Human Lymphocytes.- Inhibition of Mast Cell Mediator Release by 5-Amino-4- Imidazolecarboxamide Riboside.- Purine Metabolism by Guinea Pig Ileum.- Suppression by Methylthioadenosine of Histamine or Leukotriene-Induced Contraction in Isolated Guinea Pig Tracheal Rings.- Adenosine Receptors on Human...
